

My soul is the part of me I least understand. Somewhat an illusive commodity... but I know this of my soul... "It believes". It believes in me, in you, in us, in the bond that we have embraced, and will continue throughout this life and whatever lies beyond.

My soul longs for something greater, is patient, is kind, not envy, not boastful, not proud, not rude, not self-seeking, not easily angered, keeps no record of wrongs, does not delight in evil, rejoices with the truth, always protects, always trusts, always hopes, always perseveres, never fails, and endures forever everlasting.

I'll forever love you... and this I vow to the end of time. All my love, for all your life.

Power of Body Language

Body language combined with effective verbal communication can be a powerful way to attract a person. If a man or women uses their body to sensually express their attraction, combined with saying the right things, a new relationship could evolve. One should never underestimate the sensual power of body language.

One of the most powerful forms of body language involves the eyes. They say that the eyes reveal a person's soul, and this is very true. When you look into someone's eyes, you see a glimpse of the spirit of a person. When two people look into each other's eyes a certain spiritual energy is exchanged. Human eyes can say so much. A glance can sometimes say it all. If there is a strong attraction between two people, the eyes reveal this powerful message.

Sometimes it is just the way a person moves that can be attractive to a person. Maybe it is the way a person stands or the way they walk which is sexy. Often people have their own unique gestures that are luring. A certain laugh or a unique smile can be very sexy.

Everyone has a presence about them that makes them different from everyone else and it is this blend of gestures and mannerisms that make them who they are and makes them attractive to others.

People often express themselves with their hands when they are talking and this can make a strong impression on a person. Hand gestures combined with expressive tone in conversation can make a person very animated and interesting to other people.

Courtship is the process of selecting and attracting a mate.

It is governed by a complex set of unwritten rules that are loosely defined as etiquette. Such rules dictate where, when, with whom and in what manner we all attract the opposite sex. We generally obey these unofficial rules by instinct but we also only become aware of the rules when someone commits a breach of them.

Of the 12 dating services firms advertising online, seven companies were "almost exclusively using the internet for advertising", the report found.

Dating or courtship is the process of choosing and attracting a mate for companionship, sex, marriage and/or sexual reproduction. It is also the pre-arranged meeting (exclusive) of two people with mutual interest in one another to communicate with and to comprehend through shared participation in social activities. According to western tradition, a date is an occasion when one socializes with a potential lover or spouse for the purpose of being deeply acquainted with each other as also to come to an understanding whether they wish to have a purposeful relationship.

Though dating was generally sponsored through friends or relatives, the Second World War diminished such opportunities to a great extent, giving rise to commercial dating agencies. Newspapers and magazine ads contributed to the cause too. However, post-Internet days have brought a sea change in dating and mate-finding anonymously. Online dating services today provide unlimited dating extravaganza on the monitor without any commitment tagged to it. Ladies and men can now tap the online resources with the click of a mouse and carry on love duels without disclosing identity. Though this online intimacy can be instantly arousing, yet its pitfalls are of concern since none of the parties can ever guess an inch of the other's inner life or face read either of them. However, the world becoming more and more full of 'singles', online dating gives the opportunity to know more and more people and even find a life partner.
