

My soul is the part of me I least understand. Somewhat an illusive commodity... but I know this of my soul... "It believes". It believes in me, in you, in us, in the bond that we have embraced, and will continue throughout this life and whatever lies beyond.

My soul longs for something greater, is patient, is kind, not envy, not boastful, not proud, not rude, not self-seeking, not easily angered, keeps no record of wrongs, does not delight in evil, rejoices with the truth, always protects, always trusts, always hopes, always perseveres, never fails, and endures forever everlasting.

I'll forever love you... and this I vow to the end of time. All my love, for all your life.

Hug Types

There are so many types of hugs that it is hard to know where to start in explaining their differences. So many variables affect the types of a hug that people give each other. For instance, people's height, weight, age and their relationship, all determine the kinds of hugs that they give each other. Not to mention whether the huggers are men, women, friends or lovers!

First, there is the friendly hug. This type of hug usually happens between friends of either the opposite or the same sex. Family members also give each other these types of hugs. It is a caring, yet short embrace and may or may not involve a kiss on the cheek, depending on the situation and who the people are to each other. Generally, family member hugs include a kiss on the cheek but not always. If a younger person is hugging a senior relative or friend, the younger person often kisses the older person on the cheek. The kiss on the cheek is both a sign of respect and friendly caring or affection. The older people may also kiss the younger person on the cheek, or forehead. These types of hugs are usually done while standing or sitting down.

Next, we have the romantic hug, which is for lovers! This hug is a close and extended embrace that expresses love and passion for each other. It is almost always accompanied by kissing, which may also be very close and extended. The romantic hug is sexy and usually leads to even further intimacy and romance. This can be a hug that happens while standing up, sitting down or lying down together.

Courtship is the process of selecting and attracting a mate.

It is governed by a complex set of unwritten rules that are loosely defined as etiquette. Such rules dictate where, when, with whom and in what manner we all attract the opposite sex. We generally obey these unofficial rules by instinct but we also only become aware of the rules when someone commits a breach of them.

Online Advertising for Dating Services

Companies offering dating services are investing increasing amounts in advertising, according to a new study, with online advertising seeing particular growth.

Research carried out by Nielsen Monitor-Plus found that such firms in the US, in particular online dating sites, spent \$127.3 million advertising online in 2006. This is up from \$88.9 million spent the previous year and the second highest area of investment for dating services. Of the 12 dating services firms advertising online, seven companies were "almost exclusively using the internet for advertising", the report found.

The top ten dating services firms accounted for 96 per cent of the total advertising spend for the industry, some \$290 million of \$302 million.

It only makes sense to advertise your Dating Site online and it's even more important if your site is new in the industry.

Coopyrite.net (pronounced co-op-e-rite.net) is an advice column to the markets you seek. We provide timely articles on subjects your markets are looking for right now and therefore this is the best opportunity to attract other dating members to your venue.

The closer the better for romantic hugs!

We also have the hug that expresses that you have missed someone. This is like the friendly hug, but it usually last longer and may even involve the two people jumping up and down together or swinging each other around in circles. If you want to see examples of this kind of hugging, just go to the airport and observe people as they reunite in the arrival area. Much the same type of hugging will take place in the departure area in an airport. To hug someone before they leave on a trip or when they return from a trip, is very sentimental and makes a lasting impression on both people.

Another kind of hug is one that people give each other as a form of congratulations after an achievement. For example, when someone has a birthday or a graduation it is not uncommon to give them a hug for congratulations. Hugs are a warm and friendly way to express appreciation of another person. The embrace of another person expresses a certain feeling of union and caring. A hug can lift a person's spirits and put a smile on their face. Be open to the joy of giving and receiving hugs as they serve as a meaningful form of human contact and expression.

Dating or courtship is the process of choosing and attracting a mate for companionship, sex, marriage and/or sexual reproduction. It is also the pre-arranged meeting (exclusive) of two people with mutual interest in one another to communicate with and to comprehend through shared participation in social activities. According to western tradition, a date is an occasion when one socializes with a potential lover or spouse for the purpose of being deeply acquainted with each other as also to come to an understanding whether they wish to have a purposeful relationship.

Though dating was generally sponsored through friends or relatives, the Second World War diminished such opportunities to a great extent, giving rise to commercial dating agencies. Newspapers and magazine ads contributed to the cause too. However, post-Internet days have brought a sea change in dating and mate-finding anonymously. Online dating services today provide unlimited dating extravaganza on the monitor without any commitment tagged to it. Ladies and men can now tap the online resources with the click of a mouse and carry on love duels without disclosing identity. Though this online intimacy can be instantly arousing, yet its pitfalls are of concern since none of the parties can ever guess an inch of the other's inner life or face read either of them. However, the world becoming more and more full of 'singles', online dating gives the opportunity to know more and more people and even find a life partner.
