

My soul is the part of me I least understand. Somewhat an illusive commodity... but I know this of my soul... "It believes". It believes in me, in you, in us, in the bond that we have embraced, and will continue throughout this life and whatever lies beyond.

My soul longs for something greater, is patient, is kind, not envy, not boastful, not proud, not rude, not self-seeking, not easily angered, keeps no record of wrongs, does not delight in evil, rejoices with the truth, always protects, always trusts, always hopes, always perseveres, never fails, and endures forever everlasting.

I'll forever love you... and this I vow to the end of time. All my love, for all your life.

How to Make a Relationship Last From a Distance

Often people in relationships are faced with the challenge of keeping their relationship alive from a distance. This can be difficult for people who are used to being together most of the time. Despite these difficulties, distant relationships can thrive, if both people have genuine feelings and put some effort into it.

The first thing that you both need to do to have a successful distant relationship is to stay in contact with each other on a regular basis. Perhaps you can mutually arrange a time when you can both talk on the phone together. The time can be thought of as your distant date together. It does not matter what time of day or ever what day, as long as you agree to this time with each other. By having distant phone dates with each other, on a regular basis, while apart, you will keep your relationship bond strong.

Another way to stay close from a distance is though online chatting or video chatting, where you can actually see each other. A lot can be expressed back and forth through real time text and this can keep you close as a couple even when you are apart. By reading someone's words you can experience their virtual presence and also if you see them on video, you can enjoy their facial expressions and body language.

Something else that couples can do to keep their relationship strong from a distance is write each other old fashioned, handwritten letters back and forth. There is something very personal about reading someone's handwriting on his or her unique

Courtship is the process of selecting and attracting a mate.

It is governed by a complex set of unwritten rules that are loosely defined as etiquette. Such rules dictate where, when, with whom and in what manner we all attract the opposite sex. We generally obey these unofficial rules by instinct but we also only become aware of the rules when someone commits a breach of them.

Online Advertising for Dating Services

Companies offering dating services are investing increasing amounts in advertising, according to a new study, with online advertising seeing particular growth.

Research carried out by Nielsen Monitor-Plus found that such firms in the US, in particular online dating sites, spent \$127.3 million advertising online in 2006. This is up from \$88.9 million spent the previous year and the second highest area of investment for dating services. Of the 12 dating services firms advertising online, seven companies were "almost exclusively using the internet for advertising", the report found.

The top ten dating services firms accounted for 96 per cent of the total advertising spend for the industry, some \$290 million of \$302 million.

It only makes sense to advertise your Dating Site online and it's even more important if your site is new in the industry.

Coopyrite.net (pronounced co-op-e-rite.net) is an advice column to the markets you seek. We provide timely articles on subjects your markets are looking for right now and therefore this is the best opportunity to attract other dating members to your venue.

stationary. Better yet, you can each spray a little perfume or cologne on the paper to add that extra sensual touch! This will surely awaken the senses in each of you, as you eagerly look forward to meeting again.

Sending digital photos to each other can be very nurturing to a distant relationship. Arrange to have someone take some pictures of you and send them along to your loved one. You may want to also take pictures of some of the interesting places around you and email them to your partner to enjoy. The visual essence of photos brings something special to a person who you are apart from.

Finally, when you communicate with each other, express your love and how you miss each other. Speak often of good times that you have shared together, while you are apart. Make plans for when you will be together again and this will bring a peaceful feeling to the distant situation. If a person has fun times to look forward to with their loved one, their spirits will be lifted and they will eagerly wait for the time when they will be together again. If you are both truly in love, distance will not change anything, except to perhaps make your love even stronger. Distance is often the test of true love!

Dating or courtship is the process of choosing and attracting a mate for companionship, sex, marriage and/or sexual reproduction. It is also the pre-arranged meeting (exclusive) of two people with mutual interest in one another to communicate with and to comprehend through shared participation in social activities. According to western tradition, a date is an occasion when one socializes with a potential lover or spouse for the purpose of being deeply acquainted with each other as also to come to an understanding whether they wish to have a purposeful relationship.

Though dating was generally sponsored through friends or relatives, the Second World War diminished such opportunities to a great extent, giving rise to commercial dating agencies. Newspapers and magazine ads contributed to the cause too. However, post-Internet days have brought a sea change in dating and mate-finding anonymously. Online dating services today provide unlimited dating extravaganza on the monitor without any commitment tagged to it. Ladies and men can now tap the online resources with the click of a mouse and carry on love duels without disclosing identity. Though this online intimacy can be instantly arousing, yet its pitfalls are of concern since none of the parties can ever guess an inch of the other's inner life or face read either of them. However, the world becoming more and more full of 'singles', online dating gives the opportunity to know more and more people and even find a life partner.
