

My soul is the part of me I least understand. Somewhat an illusive commodity... but I know this of my soul... "It believes". It believes in me, in you, in us, in the bond that we have embraced, and will continue throughout this life and whatever lies beyond.

My soul longs for something greater, is patient, is kind, not envy, not boastful, not proud, not rude, not self-seeking, not easily angered, keeps no record of wrongs, does not delight in evil, rejoices with the truth, always protects, always trusts, always hopes, always perseveres, never fails, and endures forever everlasting.

I'll forever love you... and this I vow to the end of time. All my love, for all your life.

Writing Love Notes

Often, it is the small loving gestures that mean the most in relationships. It takes only a few minutes to make a lasting impression for the one you love. One of the most meaningful ways to make a romantic impression is to write a love note. There are many creative ways to write love notes.

Notes to your loved one can take many forms, ranging from text messaging the traditional hand written note. Also, emails and chat are great ways to express your love. The key is to make your message something meaningful and romantic and place it somewhere creative. For instance, you can write a note to your partner and put it on the bathroom mirror or in the fridge. Maybe you could even place a note in their lunch that they are going to take to work.

Be creative in your presentation of your message to your loved one. If you are writing a hand written note, use colorful paper or do a little drawing to accompany your words. Little things like this show your partner that you will go that extra mile to put a smile on their face. You might even spray a little perfume or cologne on the paper that you write the note on for that added sensual touch!

Another fun place to put a note is in your partner's shoe or on the seat of their car. If the car is locked, place the note under the windshield wiper but be sure it is visible. They may think it is a parking ticket but will be pleasantly surprised when they find it is a love note.

Courtship is the process of selecting and attracting a mate.

It is governed by a complex set of unwritten rules that are loosely defined as etiquette. Such rules dictate where, when, with whom and in what manner we all attract the opposite sex. We generally obey these unofficial rules by instinct but we also only become aware of the rules when someone commits a breach of them.

Online Advertising for Dating Services

Companies offering dating services are investing increasing amounts in advertising, according to a new study, with online advertising seeing particular growth.

Research carried out by Nielsen Monitor-Plus found that such firms in the US, in particular online dating sites, spent \$127.3 million advertising online in 2006. This is up from \$88.9 million spent the previous year and the second highest area of investment for dating services. Of the 12 dating services firms advertising online, seven companies were "almost exclusively using the internet for advertising", the report found.

The top ten dating services firms accounted for 96 per cent of the total advertising spend for the industry, some \$290 million of \$302 million.

It only makes sense to advertise your Dating Site online and it's even more important if your site is new in the industry.

Another good place to put a note is in your loved one's pocket or on their pillow. A note placed on the bed with a rose next to it is extremely romantic! Women love flowers and it is the finishing touch to place a flower next to your note to them. To be even more romantic, you may want to buy some massage oil and leave that next to the note on the bed. That will certainly say a lot!

Love poems are also very romantic. If you are poetic, write your loved one a poem from your heart, expressing your love for them. This will be well received for sure, as it is a very passionate gesture. Poetry and love notes go together very well.

Chocolates are also a great gift to accompany a romantic note. Women love chocolate and if you combine chocolate with flowers and a note you may experience the most passionate response ever! If you wrote your loved one a poem, you may want to consider reading it to them yourself, just to add that personal touch to the presentation of it.

Never under-estimate the power of expressing your love for your partner in the form of a note. Your loved one may be having a bad day and your note might be just what they need to brighten up their mood. You can't go wrong with such a romantic gesture.

Dating or courtship is the process of choosing and attracting a mate for companionship, sex, marriage and/or sexual reproduction. It is also the pre-arranged meeting (exclusive) of two people with mutual interest in one another to communicate with and to comprehend through shared participation in social activities. According to western tradition, a date is an occasion when one socializes with a potential lover or spouse for the purpose of being deeply acquainted with each other as also to come to an understanding whether they wish to have a purposeful relationship.

Though dating was generally sponsored through friends or relatives, the Second World War diminished such opportunities to a great extent, giving rise to commercial dating agencies. Newspapers and magazine ads contributed to the cause too. However, post-Internet days have brought a sea change in dating and mate-finding anonymously. Online dating services today provide unlimited dating extravaganzas on the monitor without any commitment tagged to it. Ladies and men can now tap the online resources with the click of a mouse and carry on love duels without disclosing identity. Though this online intimacy can be instantly arousing, yet its pitfalls are of concern since none of the parties can ever guess an inch of the other's inner life or face read either of them. However, the world becoming more and more full of 'singles', online dating gives the opportunity to know more and more people and even find a life partner.

Be creative and express your passionate feelings. If notes are not for you, just take the time to tell your partner that you love them. Loving words and a warm hug can mean so much!
